Re: Public Records Request — ALPR Right-of-Way Licenses, Loudon County

Mr. Dickerson,

I am a Loudon County Commissioner (District 2, Seat A) writing in that capacity to request records held by the Excess Land Office concerning automated license plate reader (ALPR) installations on State highway right-of-way within Loudon County.

Specifically, I am requesting copies of:

1. All applications for a license to install or operate ALPR cameras on State highway right-of-way within Loudon County, submitted by or on behalf of any law enforcement agency or local government, including the Loudon County Sheriff's Office and the municipalities of Lenoir City, Loudon, Greenback, and Philadelphia;
2. Any license agreements issued in connection with such applications;
3. Any Excess Land Committee recommendations relating to those applications; and
4. The documentation of local legislative body approval submitted with each application, as required by the Department's published application process.

If no such applications, licenses, or approvals exist on file for Loudon County, please confirm that as well — that is a complete and useful answer in itself.

I am submitting this as a request under the Tennessee Public Records Act, Tenn. Code Ann. § 10-7-503, and would appreciate the Department's response within the statutory timeframe. If any portion of the request would be more efficiently handled by a different office or a formal records custodian, I would appreciate being redirected accordingly.

Please let me know if a specific form or additional identifying information is needed to process this request. I can be reached at this email address or by phone.

Thank you for your time and assistance.

Respectfully,

Jason Tuttle
Loudon County Commissioner, District 2, Seat A
